Skills

Development Language Agnostic • Ruby on Rails • **Angular 2+** • TypeScript • **Agile/Scrum** • API Development

Experience

Full Stack Developer
Vector Legal Method, Kansas City, MO (Remote), September 2017 - August 2019

Developed features for a document management web application using Angular 4, Ruby on Rails, and MySQL

Built new and updated existing Angular 4 components using TypeScript and HTML/LESS

Added features that enhanced Rails REST API to send and receive data from the Angular side

Wrote end-to-end and unit tests for application quality assurance using MiniTest for the back-end and Protractor for the front-end

DevOps Team Lead
{SAW} Software Mill, Asheville, NC, July 2016 - August 2017

Started the DevOps team at Sawsoft by creating a release management process (Development, Integration, Testing)

Used Selenium with Python to build an automated click-testing application to save time while performing QA tests

Interviewed and trained new employees, integrating them with the DevOps team

Developed automation tools in Python to reduce release time from a previously manual process

Organized and helped publish our existing documentation so that end users could use our software effectively.

Software Engineer
{SAW} Software Mill, Asheville, NC, June 2015 - July 2016

Worked with a team to develop a greenfield construction add-on for Sage's X3 ERP platform, aimed at companies building large-scale investment projects

Contributed to the creation of over 2000 user stories using requirements gathering techniques

Helped build a time-logging application using ASP.NET MVC, allowing Sawsoft to run payroll for their hourly employees

Created an API using ASP.NET that allowed Sawsoft's developers to build tools on top of Sage's ERP platform

Projects

From Paper to Cloud - UNCA Spring Symposium 2015
Built a web application with an underlying MySQL database to convert The University of North Carolina at Asheville's Academic Policies Committee course catalog change system to a web-based CRUD system

American Workers and the Kuzbass Experiment - UNCA Senior History Thesis - Spring 2012
Researched the experience of Americans in the newly formed Soviet Union, relating to the Kuzbass Autonomous Oblast's implementation of Vladimir Lenin's New Economic Policy

Education

Bachelor of Science in Computer Science
University of North Carolina, Asheville • Asheville, NC • 2015

Bachelor of Arts in History
University of North Carolina, Asheville • Asheville, NC • 2012
